Brain Stimulation Adverse Effects Questionnaire

Subject ID: _____ Experiment: _____ Session: _____ No. Stimulations before: ____ Date:

Participant Section:

Did you experience any of the following symptoms or side-effects?	If present				
	How strong it was?	When did it begin?	How long did it last?	How much did it affect your general state?	Where were the sensations felt?
Itching	none	at the beginning	initially	slightly	diffused PO10
Tingling	none	at the beginning	initially	slightly	diffused PO10
Skin Redness	none	at the beginning	initially	slightly	diffused PO10
Headache	none	at the beginning	initially	slightly	diffused PO10
Pain	none	at the beginning	initially	slightly	diffused PO10
Scalp Pain	none	at the beginning	initially	slightly	diffused PO10
Neck Pain	none	at the beginning	initially	slightly	diffused PO10
Burning sensation	none	at the beginning	initially	slightly	diffused PO10
Warmth/Heat	none	at the beginning	initially	slightly	diffused PO10
Metallic/Iron Taste	none	at the beginning	initially	slightly	diffused PO10
Fatigue/Decreased Alertness	none	at the beginning	initially	slightly	diffused PO10
Sleepiness	none	at the beginning	initially	slightly	diffused PO10
Trouble Concentrating	none	at the beginning	initially	slightly	diffused PO10
Acute Mood Change	none	at the beginning	initially	slightly	diffused PO10
Nervousness/Anxiety	none	at the beginning	initially	slightly	diffused PO10
Discomfort	none	at the beginning	initially	slightly	diffused PO10
Unpleasant Sensation	none	at the beginning	initially	slightly	diffused PO10
Dizziness	none	at the beginning	initially	slightly	diffused PO10
Nausea	none	at the beginning	initially	slightly	diffused PO10
Visual sensation	none	at the beginning	initially	slightly	diffused PO10
Other (Please Specify)	none	at the beginning	initially	slightly	diffused PO10
Other (Please Specify)	none	at the beginning	initially	slightly	diffused PO10
Other (Please Specify)	none	at the beginning	initially	slightly	diffused PO10

If any sensations present, do you believe there is there a possibility that it is related to the tES? none

Investigator/Researcher Section:

Type of stimulation used: __TIS__ Intensity: [mA] Duration: [s] Impedance: [kΩ]

Electrode setup (gel or saline sponge): _____gel_____ No. Electrodes: _____

Electrode Dimension/Shape: _____

Electrode Position:

E1	E2	E3	E4
x	x	x	x
y	y	y	y
z	z	z	z

Please report any adverse event/problem (typically skin irritation and redness – separately for the electrodes, headache, scalp pain, dizziness, or others, please specify) that occurred and rate the event/problem on a scale of 1 to 4 as previously described:

Additional comments:

N.B One of these forms to be filled out for each session of an experiment

---

To be administered once only, at end of entire experiment:

Participant:

Do you believe that you received real or placebo stimulation?
